### **Bosch D-Jetronic Fuel Injection Manual | Engines | Motor**

...

The D-Jetronic system uses constant fuel pressure and flow, so that only injection duration needs to be modified to control air/fuel mixture. The D-Jetronic system measures incoming airflow by monitoring intake manifold pressure. Engine speed, temperature, and other factors are monitored for the purpose of fine-tuning injection duration.

### **Bosch D-Jetronic - PBworks**

If you want to measure deeply in your D-Jetronic, you will need a multimeter. While all Bosch workshop manuals recommend the Bosch EFAW 228, I can calm you down that you do not have to spend up to 1000€ for such a tool. The EFAW 228 is nothing but a multimeter for measuring voltage or resistor plus a switch to activate your fuel pump permanently.
