About US | IEATA

Natalie Rogers' approach to person-centered expressive arts therapy developed out of the client-centered therapy work of her father, the late Carl Rogers, combined with the influences of her mother, who was an artist herself. The person-centered approach is more than just a theory of psychotherapy—it is a belief system and way of life.

Group Activities - Expressive Therapist

Expressive arts therapy is a form of client-centered therapy that uses artistic expression to help people resolve trauma and process difficult emotions. This kind of therapy takes many forms, but the main areas of expression are dance therapy, art therapy and music therapy. Activities in expressive arts therapy may also include poetry, meditation, journal writing and improvised drama - all with the goal of cultivating a deeper relationship between the conscious and unconscious self.

What is Expressive Arts Therapy and How Does It Work ...

Expressive arts therapy uses various arts—movement, drawing, painting, sculpting, music, writing, sound, and improvisation—in a supportive setting to facilitate growth and healing. It is a process of discovering ourselves through any art form that comes from an emotional depth. It is not creating a "pretty" picture.
