By measuring innovation capability, product development leaders not only understand if they achieved their innovation strategy, but they gain insight into why. Once there is an understanding into why an innovation strategy was successful or not, organizations gain additional visibility into the product innovation lifecycle.

### Why You Should Measure Innovation by Capability | Planview

It is interesting to note that the "innovation system" variable developed here differs in important respects from the more narrowly defined "innovative capacity" variable, based on patent statistics, suggested by Furman et al. (2002) and Furman and Hayes (2004). 9 The problem with measuring innovation capability solely by patents is that patents are given to (globally novel) inventions.
