Mercruiser Engine Start Switch - chimerayanartas.com

Simple. Use a test lead on the slave solenoid socket to jump between terminals A and B and the engine will crank. Make sure the ignition switch is in the run position and the engine will start. Ok, lets say when you hit the switch you hear a click from the engine, but no cranking of the starter. Now what do you check.

Mercruiser 140 Engine Start Switch - auditthermique.be

by Rod Stewart Contents[show] The Motivation From what I have read, there are many owners of carburetted 4.3L engines that find these engines very hard to start after sitting idle for a few days. My 1996 4.3LX had the same problem since day one. It was extremely aggravating. It seems the problem is likely that the gas somehow drains back from the carb bowl into the fuel tank after the engine ...
