The HH11B and HH12B handheld Omega's digital thermometers feature Type K thermocouple inputs and are available in either single- or dual-input models. The HH11B is a single-input model that has auto range resolution of 0.1 or 1°.

Omega's Digital Thermometers with Dual-Input or Single-Input

You cannot mount this sensor right before a nozzle. This sensor needs a straight pipe before and after the sensor. The FTB791 needs at least 15 inches of straight pipe before and 10 inches after the sensor. Please contact our Tech Support or flow@omega.com so we can fully understand your application to further advise as you need. Thank you!
