acute respiratory syndrome, and pandemic influenza A H1N1 are startling reminders of our vulnerability to emerging infectious diseases; indeed, even Hollywood filmmakers seem to share this concern lately. In his book, *The Viral Storm*, Nathan Wolfe explores the origins of pandemics

The viral storm: the dawn of a new pandemic age

In *The Viral Storm*, Wolfe tells the story of how viruses and human beings have evolved side by side through history; how deadly viruses like HIV, swine flu, and bird flu almost wiped us out in the past; and why modern life has made our species vulnerable to the threat of a global pandemic. His provocative vision of the future will change the way we think about viruses, and may even remove a potential threat to the survival of humanity itself.
